

SAGE Deep Backfile

Deep Backfile for SAGE's peer-reviewed scholarly journals are available in a wide range of subject areas, including business; humanities and social sciences; and science, technology, and medicine.

- Deep Backfile of over 560 journals.
- More than 760,000 articles.
- Lease and purchase of one entire deep backfile or individual titles available for individual libraries and library consortia.
- Coverage back to Volume 1, Issue 1, through the last issue of 1998.
- Content ownership of purchased content.
- Journal Backfile articles posted in PDF format with XML based headers, abstracts and references.

For more information, please visit sagepub.com/sage-backfile-packages or contact librarysales@sagepub.com

SAGE Premier

Online access to over 900 SAGE journals in business; humanities and social sciences; and science, technology, and medicine.

The **SAGE Premier** package includes leading international peer-reviewed titles, including high-impact research journals published on behalf of more than 350 scholarly and professional societies. Our journals cover a wide range of subject areas—including business; humanities and social sciences; and science, technology, and medicine—allowing libraries to support the varied teaching and research needs of their students and faculty.

SAGE Premier includes the following:

- access to over 900 SAGE journal titles, comprising over 740,000 articles;
- access via SAGE Journals, now hosted on its new online platform; and
- complimentary access back to 1999, where available, while a current subscription is maintained.

For more information, please visit sagepub.com/sage-premier or contact librarysales@sagepub.com
